

MONTE CREEK — R A N C H —

2014

RIESLING ICEWINE

The Facts

Harvested	November 13th, 2014
Temperature	-12c
Alcohol	14.2%
Residual sugar	189 g/L
pH	3.12
Tartaric acid	13.70 g/L

THE WINE

Great Icewine is always about having great acidity to balance all that sweetness, and this Riesling doesn't disappoint. If the ginger, lime sherbet, and floral aromas don't sway you then the mouth watering acidity and candied flavours certainly will.

VINTAGE SUMMARY

An early spring led to an incredibly warm summer in 2014. In fact, it was the most heat we had seen since 2003, when our vineyards were still hayfields. After the long, warm fall somebody turned the heat off and we got hit with a nasty November cold snap. Nasty for us, but great for Icewine. It was one of the earliest Icewine picks on record and resulted in superb quality and fresh flavours.
