— R A N C H —

NV

HASKAP

THE FACTS

Alcohol	11.5 %
Residual sugar	170 g/L
pH	3.3
Tartaric acid	18 g/L

THE WINE

Native to northern parts of Asia and Europe, Haskap berries have long been prized for their unique taste and natural health properties. We grow and blend together three different varieties for the perfect balance of sweet flavour and acidity.

Aromas of blueberry, strawberry, rhubarb, vanilla, and pastry. It has a very concentrated palate with loads of acidity to balance the sweetness. This dessert wine pairs beautifully with just about anything chocolate.
